

## HURON COUNTY GENERAL HEALTH DISTRICT

Timothy Hollinger, MPH, Health Commissioner

180 Milan Avenue, Suite 8  
Norwalk, OH 44857  
e-mail: [information@huroncohealth.com](mailto:information@huroncohealth.com)

419-668-1652 or 1-888-694-2443 Toll-Free  
419-668-5423 General Fax  
419-660-0129 Environmental Health Fax

The Huron County General Health District provides this information packet to assist property owners with the application process to obtain an installation permit for a sewage treatment system. The health district issues permits for both household and small flow on-site sewage treatment systems.

To apply for an installation permit this information must be presented for review and approved before a permit to install a sewage system can be issued. There are private companies and certified soil scientists listed in this packet who will provide these services needed for your application.

- a site and soil evaluation,
- treatment system design,
- application, and
- calculations sheet.

**NOTE:** Prior to splitting any parcel of land, no matter the size, the Health District **strongly** recommends contacting the Huron County Soil & Water Conservation District at 419-668-4113 press 3 or the Huron County Tax Map Office at 419-668-2021 regarding Planning Commission requirements. *The Huron County Planning Commission requirements must be met in order for you to record the land parcel and receive a street address for the property.*

### **CHECK LIST FOR SITE AND SOIL EVALUATION**

This checklist provides a few of the items ***needed before*** a site review application is completed. This information allows the health district to determine if the property meets the requirements for an adequate sewage treatment system.

- \_\_\_\_\_ Site drawing no larger than 11" X 17" to scale (1"= 50', 1"= 40', 1"= 30') and showing lot dimensions and all the soil boring or excavation locations.
- \_\_\_\_\_ North orientation arrow
- \_\_\_\_\_ Existing or proposed dwellings, buildings, and/or other structures
- \_\_\_\_\_ Existing or proposed site disturbances (i.e. ponds, swimming pool, pasture, driveways or other hardscapes ...)
- \_\_\_\_\_ Location of all existing or proposed private water systems and surface water features on the lot or within fifty (50) feet of lot lines
- \_\_\_\_\_ Location of any easements or right of ways on the lot
- \_\_\_\_\_ Designated wetlands or 100 year flood plains on the lot
- \_\_\_\_\_ At least two (2) locations with adequate contour lengths are indicated where a sewage treatment system is possible

### **SITE AND SOIL CHARACTERISTICS**

- \_\_\_\_\_ The property owner must hire a certified soil scientist to conduct a site and soil analysis of the property
- \_\_\_\_\_ Submit a properly completed Ohio Department of Health Site and Soil Evaluation for Treatment and Dispersal form for **each soil boring / excavation location**
- \_\_\_\_\_ Provide site descriptions to include: slope, vegetation, drainage features, rock outcrops, erosion, and other natural features
- \_\_\_\_\_ Document any geological, surface and/or ground water risks for potential contamination on the lot or surrounding area
- \_\_\_\_\_ Designate any areas or conditions that prohibit a sewage treatment system

### **DESIGN PLAN OR LAYOUT**

- \_\_\_\_\_ A sewage treatment system design plan or a layout must be provided.  
***It is recommended that you work closely with your system designer in order to explore all available system options before deciding on the design that is submitted for review.***
