Temporary Food Facility Packet

A temporary food license is required at any temporary site, location, or separate area where food is stored, processed, manufactured, or otherwise held or handled for sale.

General Information

- The application must be submitted no less than five (5) days prior to the event.
- ➤ The application must be completely filled out or it cannot be processed.
- ➤ The license fee must be submitted at the time of application.
- ➤ Temporary Food Licenses are issued for a maximum of five (5) days.
- ➤ The sanitarian will deliver the license on the first day of the event, after an approved inspection.
- ➤ The temporary food license must be posted during operation.

Get a Kit! At the time of application payment, you may attend a short temporary food safety presentation and receive a FREE starter kit that includes sanitizer, test strips, thermometer, gloves, hair restraint, alcohol swabs, hand soap and dish soap. While supplies last.

Exemptions from licensing

The following types of events are commonly exempt from licensing.

- > Selling food that is non-potentially hazardous (such as whole fresh fruits or vegetables, bags of chips, candy bars, cans/bottles of pop or water) and in an areas less than two hundred (200) cubic feet.
- > Serving for "donations only"; the following specific guidelines must be met.
 - 1) A sign must be posted stating "Donations Only" or "Donations Accepted".
 - 2) No "Suggested" price or amount is permitted.
 - 3) All advertising must state the wording and requirements as listed above.
 - 4) No patron may be denied food based on the amount of or lack of a donation.

Cancellation Policy

If your event is cancelled or postponed, you may request a refund if the request is made in writing at least **six (6) business days before the event**, no refund will be given otherwise. Please note: an administrative fee will be deducted from the refund.

Temporary Food Facility Guidelines

Booth- A booth is usually necessary.

1. The booth must have a solid surface. If the surface is grass or stone, a temporary floor is required such as plywood panels or large rubber mats. Foods must be protected from sources of contamination; a tent or temporary booth may be required.

<u>Food Sources</u>- Food must be from an approved source.

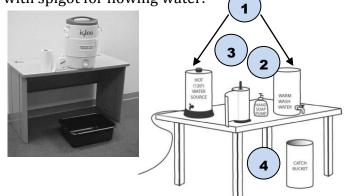

- 1. All food must be purchased from a licensed facility; **foods may not be prepared** at home.
- 2. Foods must be properly transported-Use an insulated transporter if transporting hot or cold foods.

Hand Washing Facilities- Hand washing facilities are required to be located at the booth. If a regular hand sink is not available, a temporary sink may be set-up. The following items are required;

1. Flowing warm water (100°F or higher) for hand washing. A coffee pot may be used to heat water, and then mix into igloo or other container with spigot for flowing water.

- 2. Liquid hand soap (with pump).
- 3. Paper towels (no cloth/linen towels).
- 4. Catch basin for waste disposal.

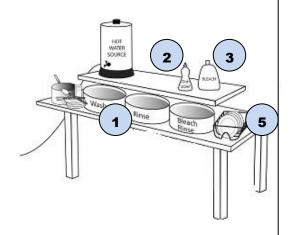

Temperatures-Foods must be held and cooked at proper temperatures.

- 1. **Cold** foods must be held at 41°F or lower at all times.
- 2. **Hot** foods must be held at 135 °F or higher at all times.
- 3. **Cook** foods to proper cooking temperature (chart attached).
- 4. Use a **thermometer** to check temperatures, *proper temperatures* cannot be determined by the color of the meat.

<u>Dish Washing Facilities</u>-Dish washing facilities are required onsite. If a sink is not available, a temporary sink may be set-up. The following is required;

- 1. **Three basins or sinks**; one wash, one rinse, and one sanitizer.
 - a. Wash water must be 110°F or higher.
 - b. Sanitizer water temperature must be 70°F-90°F.
 - c. Basins must be large enough to hold largest utensil or equipment to be washed.
 - d. All sinks, pipe and plumbing must work properly and allow wastewater to drain without back-ups.

2. Liquid dishwashing soap.Sanitizer.

- a. UNSCENTED Chlorine bleach can be used.
- b. Quaternary or chlorine tablets can be used.

Sanitizer **Test Strips**.

- a. Make sure test strips match sanitizer type.
- b. Chlorine test strips are used for bleach.
- Area to drain and air dry dishes.
 - a. Towel drying is *not* permitted.

Drawing of Temporary Food Establishment Draw a diagram of your event and include the location of required equipment and facilities. Here is an example for your reference.

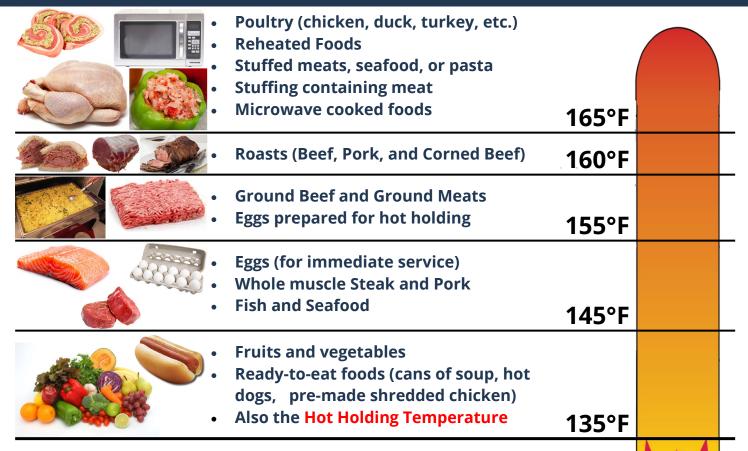

Label the following;

- 1. All cooking and warming equipment.
- 2. All refrigerators/coolers.
- 3. Dishwashing station.
- 4. Handwashing area.
- 5. Trash storage

COOKING TEMPERATURES

Bacteria grow rapidly in the temperature danger zone!

Minimize the time that food spends in the danger zone:

- ✓ Prepare foods in small amounts
- ✓ Record temperatures using a temperature log
- **X** Do not cool foods at room temperature
- X Do not thaw foods at room temperature

Cold Holding:

Any TCS foods that are not either cooking or in hotholding, must be maintained at or below 41°F.

Foods should be stored in refrigeration in mirrored order to cooking temperatures above (eg. Cooked vegetables on top shelf, raw chicken on bottom shelf)

OAC 3717-1-3.3

Public Health

GLOVE USE/NO BAREHAND CONTACT

Do **NOT** touch ready to eat foods with bare hands

Use single use gloves, deli tissue, utensils (tongs, spoons, etc.)

When using gloves you must:

- ✓ Wash your hands first
- ✓ Only use gloves for one task You must wash your hands and change your gloves after:
- Taking out the garbage
- Touching your hair or face
- Touching raw meat
- Using the bathroom
- Cleaning with chemicals/sanitizers
- Handling dirty equipment
- Any other activities that contaminate your gloves

Do NOT re-use or wash gloves!

Using gloves does not replace proper hand washing!

Some food handling activities that prohibit bare hand contact:

- Slicing deli meat
- Preparing salads
- Putting chips on a plate
- Touching buns, toast, rolls
- Putting lemon wedges on cups •

- Cutting tomatoes
- Peeling hard-boiled eggs
- Making a sandwich
- Boxing cookies
- Making Deli Salads

MANUAL DISH-WASHING PROCEDURE

5. Air-Dry

Air-dry all dishware.

Never use cloth or
paper towels as this

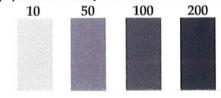

4. SANITIZE

Sanitize dishes for proper contact time in warm water (70°F). Check sanitizer level every time.

Remember to wash your hands between placing dishes in sanitizer and removing them to air dry. This prevents re-

CHLORINE

Dip and Remove. Blot immediately with paper towel. Compare to Color Chart at Once.

The safe level is **50-100 ppm**.

Rinse dishes in running water, or by submerging in clean water.

Proper Sanitizer Use

Sanitizer must be used with warm water only (70°F)
Fill sink with water first, then add the sanitizer. Check the level of sanitizer using matching test strips every time dishwashing is done.

QUATERNARY AMMONIA

Immerse for 10 seconds. Compare when wet.

Parts Per Million Exp Dec 1, 2017 Lot 233615

0 100 200 300 400

The safe level is **200-400 ppm**.
