Updates

Huron County A.R.I.S.E. Youth Prevention Coalition has been busy this month as we continue to build leadership skills in our members! In early May, we traveled to the statehouse in Columbus to advocate for youth voice at the Our Voice. Our Future Advocacy Day, hosted by the Ohio Youth-Led Collective. Members Erica Foster and Max McKee got involved in the program, with Erica sharing her thoughts on the importance of youth voice. Recently, three members of the group attended a Four Corners Leadership Workshop at Love Grows Love to help identify their individualized strengths. In June, members of A.R.I.S.E. will be going through a CATCH My Breath Vaping Prevention Training to become facilitators and lead vaping prevention workshops for 5th graders in the fall. Stay tuned for what's next!! If you have a 7th-12th grade Huron County student who is passionate about vaping prevention and promoting youth mental wellness, we would love to have them join our group.
