Creating Healthy Communities

CHC INFORMATION

- *Huron County Public Health (HCPH) is one of 23 grantees of the Ohio Department of Health's Creating Healthy Communities Grant. This is a 5-year federal grant that counties can apply to receive up to \$100,000 per year. (2024-2029).*
- *The \$100,000 per year includes personnel and non-personnel funding. A table showing average dispersed funding the last 4 years is attached at the bottom.*
- *The current grant cycle is October 1, 2025-September 30, 2026.*
- *All funded projects are expected to work in communities with a high Social Vulnerability Index (SVI) score and/or other demonstrated need. Applications may include a single county or multi-county project area, and the application should define the project area, such as county, city, township, census tract(s), census block group(s), or census block(s).*
- *CHC projects should include Active Living and Healthy Eating strategies for chosen communities.*
- *ODH provides a strategy guide to follow with what CHC funds can be used per project.*

Based on 2020-2024 averages- percentages may vary depending on grant year and ODH allocated amount rewarded. This will include rising general inflation as well.

	Budgeted Amounts
Personnel (Direct)	54%
Other Direct Costs	7%
Contracts (Projects- indirect)	39%
Total	\$100,000
